26 March 2018

NEWS

Dear TCIS Community,

As I walked through our classes this week, I saw students engaged in **STEM lessons!**

In grade 3, students were **integrating math** into social studies as they learned about the economics of supply and demand (below, right).

In grade 2, after reading the *Three Little Pigs*, students designed and built model houses then tested them to see if they could withstand different wind pressures (above). Nice **engineering!**

In grade 1, students were reading books, at their level, on the class **ipads** (right). Finally, last Friday, I saw grade 4 students sharing their **blogs** during conferences (far right).

Integrating **STEM** makes learning more **engaging, relevant and challenging** for our students so they are prepared to be **responsible global participants.**

Have a great week everyone!

Dr. Betsy

COMMUNITY

We are **NOW enrolling** for the **STEM Summer Learning Institute**. Click [here](#) to learn more and register.

Sports Day is Thursday! If you would like to volunteer, please see the volunteer check-in station on the playground - 7:30 on Thursday. There will be parking available in the car park and at Big Tree.

STUDENT NEWS

Grade 4 Parents - our students are almost middle schoolers. Click [here](#) to learn more about how we can work together to support this transition.

EVENTS

Monday, 26 March
